WEB APPLICATION DEVELOPER – 11/2024 – 01/2025

I worked as a remote intern for the position of junior level frontend web developer in this company for around 2.5 months. We, as a team in that company, worked together to build an E-commerce web application for the client. I had the key role in that team, as I could collaborate with the backend team for API integration and state management. My roles on this company were:

- State management
- Development of products page
- Collaborate with developers
- Backend and Frontend/API integration

PROJECTS

07/2024 – 07/2024
Weatherize

I completed a project called Weatherize, a simple yet effective weather app designed to provide users with real-time weather updates.
It was built using the API key of open weather website.

- Tech Stack Used:
- React JS
 - Tailwind CSS
- Features:
- Temperature's unit can be changed
 - Can check the weather, Wind speed, Humidity level
 - Search by city or Country

07/2024 – 07/2024
To-do App

I've completed a Todo App using the MERN stack (MongoDB, Express, React, Node.js), which has become an invaluable tool for managing my projects and boosting productivity.

- Tech Stack:
- ReactJS
 - Node.js
 - ExpressJS
 - MongoDB
- Features:
- CRUD operations for Add, Read, Update(boolean value), and Delete

HOBBIES AND INTERESTS

Writing codes and poems

I am a passionate CS aspirant who chose computer for fun. And about poems, I love to write it when I am alone or in a deep thought.

ORGANISATIONAL SKILLS

Good Time management, can collaborate with the team fully, good communication skill

Me as a student, learnt about the time management from my high school where I studied for my school and learnt web development side by side. And when I was in an internship I was able to collaborate with the backend as well as the frontend teams so that I could express the idea and work as bridge between team.
